extreme

+ 4 swim jets + 4 pumps

swim supported by high performance jet stream :
fast & economic 8.8kw heat&cool pump : competition or

ocean swimmer + walk + stretch + run + massage

walk + stretch + run + massage
+ swim tether + own body weight

+ steady swim jet stream
+ swim tether assisted slow swim

+ strong swim jet stream
+ strong swimmer

+ high performance swim jet stream
+ competition / ocean swimmer

additional features of our EXTREME series...

fully jetted cool down seats

Exercising in water has added benefits to land-based activity. Your muscles are challenged from all directions by the surrounding water as you swim, jog, walk, run, tone and stretch

Joints are protected by the buoyancy benefits of the warm water

The well placed massage jets in your cool down seats will stimulate to multiply the benefits of exercise

water spouts

Aqua play is the perfect way to develop a strong bond with your children whilst playing at their level

In today's world of internet, iPods, video games and television, we need a way to promote an active lifestyle and avoid the danger of disconnection from each other

iTouch digital touch screen

Large 4.3" viewing area, optimised for use outdoors, the anti-glare & anti-reflective screen is easy to use with wet or dry hands

With software tailored for use with your Sapphire Spa, intuitive menus let you take control of every function with ease

blizzard cover

- full heat seal to reduce run cost
- 130-100 taper for added strength
- aluminium reinforced
- top stitch for added durability
- improved aesthetics
- 8 tie downs for safety in harsh conditions
- heat in : cold out

8.8kw heat&cool pump

The larger 8.8kw heat pump is the perfect companion for all swim spas, providing up to 8.8kw heating output whilst only consuming around 1.8kw of input power. This can reduce your heating costs by up to 75%

A spanet heat pump can be easily installed on all sapphire spas fitted with an SV series control

standard features of every **sapphire spa**

trusted warranty

As an all Australian, locally designed & manufactured spa brand, we offer you quality controlled manufacturing. Every spa is built to the highest Australian Standards and backed by our 'lifecare commitment'

superior structure

aussie tough with high quality fade resistant acrylic, thick handmade sturdy cabinets & stainless steel trim - mySpa is built to last
sturdy galvanised steel frames on swim spas are built to last

true integration

Genuinely interfaced for ease of use, mySpa components work seamlessly with one another & also allow additional running gear to be added and controlled from the topside touchpad

POWERsmart technology

Exceptional, efficient performance is provided by the perfected combination of our running gear

sqr high performance jets

We promise unrivalled reliability and unparalleled massage from our sqr jets installed in every sapphire spa

With increased pressure at the jet face, better seals and significantly reduced potential for leaks, these exclusive jets are the most important part of mySpa

heatlockthermo+

heatlockthermo+ insulation comprises an insulated custom made cabinet, 2 layers of insulation on interior of cabinet walls and base, high density insulation on shell and a premium Australian made cover

beautiful & comfortable

We've created a spa that follows the human form with flowing acrylic lines. Please sit in mySpa and just notice the way our loungers support your lower back, feel the comfort of the neck & shoulder moulding and the way the jets disappear into the recesses so they don't press hard against your body

efficient plumbing

Experience counts - from our design team to our assembly tradespeople, you will notice the difference when you immerse yourself into one of our spas

Pumps, plumbing, jets, even the smallest fitting has been selected to provide the best performance possible

EFFICIENCY = ENJOYMENT

immerse yourself in surround sound

Combined with mySpaLINK, mySpaHiFi delivers a high definition stereo sound system for your spa, offering exceptional sound clarity with subwoofer support

Music can be streamed directly to your spa from any bluetooth smart device (phone, tablet or PC). Sophisticated transducer technology produces immersive underwater surround sound as the sound waves are fed through the spa shell and amplified by the volume of water mySpaHiFi is a sealed module eliminating troublesome stereo head decks and water proofing difficulties

mySpaLINK control

access - anywhere - anytime

Control your spa from anywhere in the world. The mySpaLINK module and 'app' allow you to connect to and take control of your spa, locally or remotely via a WiFi, 3G or 4G network, providing access to your spa from any location at any time

The mySpaLINKapp for your smart device becomes a wireless remote for your spa, enabling complete control over all spa accessories including pumps, air blowers and LED spa lighting effects. mySpaLINKapp allows complete adjustment of all spa control setting as if you were standing in front of the spa

who would've thought jets were so important?

SQR jet system

New spectrum jets on all sapphire spas
SQR (Simple, Quick, Reliable) System
Better seals to provide increased jet pressure

Superior performance

20% increase in pressure achieved via a more effective venturi
Almost zero water bypass resulting in more water being forced into the jet
Free flowing jet that allows greater pressure at jet face

Advanced manufacturing

Less steps, less tools
Less chance of errors and greater consistency
Used for 5 years in the USA and Europe

Unrivalled reliability

Significantly reduced potential for leaks
Introduction of a new locking mechanism
Jet that can be removed with ease and is less prone to getting stiff

unrivalledreliability
exclusive to all our spas

all australian **built tough**

As an all Australian, locally designed and manufactured spa brand, we offer you many benefits:

- the longest warranty on the market
- quality controlled manufacturing that means every spa is built to the highest Australian Standards
- a 'lifecare commitment' that GUARANTEES we'll service your spa as long as you own it

TRUSTED AUSTRALIAN WARRANTY

10 years on fibreglass structural support

5 years on acrylic surface

5 years on cedar cabinet / 3 years on duratek

3 years on swim spa frames

Our mySpa@Home website tab and 1300 customer sales & support number has helped guide many customers through the initial set up and ongoing running of their spa.

'as nature intended'

clearzone water

gentle on the skin. simple water care. no odour.

Like bathing in fresh water

We care how you feel in our spas, so we've created the purest sanitisation method, that literally feels like you are bathing in drinking water

Our unique **double defence** combination of CD ozone and UVc barrier destroys 99.9% of bacteria, parasites and other micro organisms and effectively oxidises body fats and oils

Clearzone spa sanitisation reduces chemical usage by up to 75% on conventional sanitisation methods. It maintains a more stable water balance, less prone to pH fluctuations

Experience the purest spa water possible:

- NO chemical smell or taste
- NO skin or eye irritation
- REDUCED running costs
- NO corrosive effect
- NO need for daily chlorine dose
- No shower needed after your spa

Consider clearzone if you have allergy concerns

You can upgrade to clearzone as it's easy to retro-fit to existing spas

spa water
enriched with oxygen

true integration

genuinely interfaced for ease of use

For a relatively small outlay, compared to the built-in conventional heater, our heat&cool pump will reward you with **drastically reduced running costs**. The pump uses up to 75% less energy than a conventional electric heater and 50% less energy than natural gas

Most of our spas are affordable to heat simply with the built-in electric heater but, for the larger spas and swim spas, an external heat&cool pump will keep your heating costs to a minimum

With the equipment already in place, you can connect one of our heat&cool pumps any time and enjoy complete control from your topside touch pad

'just jump in anytime'

spa heating

saves you money
super efficient

The best way to reduce heat loss and keep running costs to a minimum is our **heatlockthermo+** system which creates the most energy efficient spa in the world today

Our **heatlockthermo+** insulation comprises an insulated custom made cabinet, 2 layers of insulation on interior of cabinet walls and base, high density insulation on shell and a premium Australian made cover

Sapphire Spas also offer the super efficient cedar wood cabinet with cedar being a very effective insulator in its own right

Our cabinets are custom made to each spa so there are no gaps for warm air to escape

low running costs
unmatched value

heatlockthermo+
heat in. cold out.

the lowest daily operating cost
POWERsmart
technology

heat&coolpump ready to jump in 24/7 using up to 75% less energy than gas heating

dynamic thermal tuning mySpa will 'learn' about your day-to-day spa usage and actually tune your spa to reduce costly on-demand heating

clearzone the most efficient sanitisation method, as pure as drinking water, with up to 75% less chemical usage

varidrive80 all-in-one SuperPump gives crystal clear, whisper quiet filtration at minimum cost

heatlockthermo+ insulation captures heat to keep running costs to a minimum

smartcontrol fully integrates all spa componentry to streamline energy efficiency

variableheater optimises performance to maximise heating output whilst spa is in use; avoid load shedding shutdown so your spa stays warm while the jets are in operation

smartsoftware your control system will enable software updates to be easily carried out as new and improved features and technology become available (just like we update our iPhones or PCs). Simply keep in contact with your Sapphire Spas dealer and take advantage of new configurations, settings and money saving upgrades

EXCEPTIONAL EFFICIENT PERFORMANCE

If gas is your choice, all Sapphire Spas can be fully integrated with an efficient gas heating system

Our heatlock⁷ hard covers are designed to be good looking, hard wearing and money saving. These foam filled covers are custom fitted to your spa to capture heat and conserve energy

colour palette the perfect look for you

It's not enough that our spas perform perfectly, they also have to look beautiful - stylish and sophisticated with the tones and colours that suit your home. Our colour palette is modern and contemporary, but more importantly the colour cast is consistent across the entire spa shell; no colour fades or blotches; each spa really is a work of art

We offer two types of cabinetry, handcrafted western red cedar and duratek:

Australian western red cedar cabinets are handcrafted from 22mm solid panels teamed with aerofoil blanket insulation lining to offer the ultimate in natural insulation; they look naturally beautiful in any setting

duratek cabinets: Sapphire Spas have specially developed Duratek as an environmentally friendly timber alternative. These modern sophisticated cabinets are fade and stain resistant and come with an unconditional 3 year warranty

midnight

**high quality acrylic fade resistant
to maintain original colour & texture,
maintenance free smooth contours**

for every muscle on every body

stainless steel support bar

with the assistance of our support bar, those of you requiring help with stability can still use a swim spa with confidence. Any exercise, stretch or mild cardio workout can just as effectively be performed whilst holding the bar, mounted in front of the swim jets, for support

legs, hips, thighs & buttocks

this purpose built recliner targets the muscles of your legs, hips, thighs, buttocks and calves to deliver an invigorating hydro workout without the sweat

footcell massage

just take a minute to remember where your feet have taken you today... we have created this massage system to reward your feet and calves to get them ready for another full day tomorrow

mid back

by combining heat, water and air your body becomes almost weightless, relieving joint and muscle aches

spinal massage

positioned either side of the spine, these jets together with massage & heat, stimulate the blood supply to aid in the recovery of aching muscles or damaged tissue

acupressure massage

jets are strategically positioned above the cool down seats to target your entire back for a luxurious, multi point massage

neck & shoulders
imagine four jets streaming down to release all the tension held your neck, shoulders & upper back

relieve back, neck & shoulders, stimulate & tone hips, thighs & buttocks
